Live Classes

The SFL Virtual System is a platform that offers live interactive online classes using a teaching methodology applied to virtual learning environment.

Classes are live; schedules and duration are adapted to each level of language proficiency.

Same syllabus as in a traditional classroom.

Small class sizes that allow teachers to devote more time to instruction.

Learners and instructors engage with one another through an interactive and a multi-screen class software.

Course learning outcomes and materials are the same as in a traditional classroom.

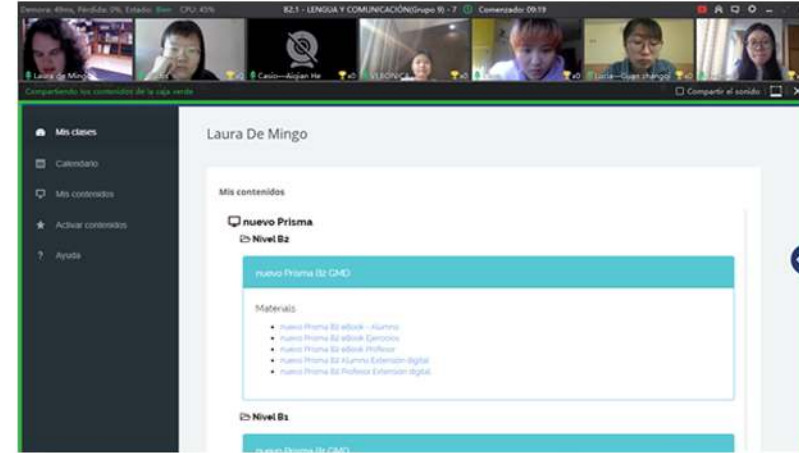

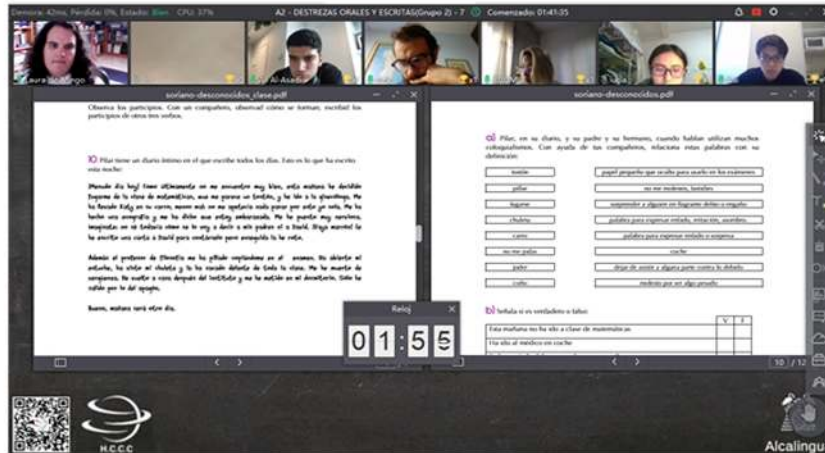

The SFL Virtual System reinforces the continuous supervision and training of our instructors, who are experts in teaching Spanish with a recognized professional career.

The University of Alcalá will certify ECTS credits.

Online class participation
through discussion and
activities.

Students have access to pedagogical materials without having to download them.

Class discussions occur in pairs or in small groups.

Easy access from any device with an internet connection.

Students can write on the interactive white board using different colors.

The instructor can use images and videos during the online lecture.
